

And it will Guide you through that turbulent flight;
 Through the dark storms of life.
 And while you are in that turbulent flight,
 Charter your course to your success and goals.
 Stay steadfast to your course with faith and conviction and
 determination,
 And don't let anything and no one lead you astray or delay you
 From your destination.
 And don't hesitate or you'll descend and fall in a mass of
 Confusion.
 Is your course designated?
 So keep a steady pace
 If you want to stay in the race when you're in the storm.
 Your turbulence will be: greed, anger, envy and jealousy.
 When you come to that obstacle,
 Go over and around or through it;
 But don't let it stop you or hinder you or you're going down in
 Flames.
 And when you come through that storm, you'll land on the
 foundation of progress
 And success and you'll not be drowning in the sea of doubt,
 Going down for the third time.
 So don't lose your latitude and bearing by using the wrong
 Attitude.
 Stay calm and collective and put things in their proper
 Perspective.
 The key to your success is progressive activity,
 And that involves the three "Ps":
 Planning, Projecting and Producing in order to have the proper
 perspective
 You need Four things:
 Faith, Determination, Motivation and Aptitude.
 And don't wish or hope for success for without Faith,
 There is no hope for success.
 Sometimes you'll have to be forceful and aggressive to keep from
 being deterred from your goals and direction.
 The mind is a terrible thing to waste,
 So feed it the fruits of knowledge,
 And find the right direction to set for your goals.
 And don't hesitate or it'll be too late
 When you cross the line of your success,
 Hold your head up high and say mind is the best,
 Because it has conquered life's hard test,
 And is ready to pursue the rest

I Do Manifest
